

DOM

DF01

La verticalità del vetro borosilicato lavorato a mano conferisce alla piantana DF01 una presenza elegante e misurata.

Ottone e pietra aggiungono un tocco essenziale che interpreta la luce con minimalismo e leggerezza.

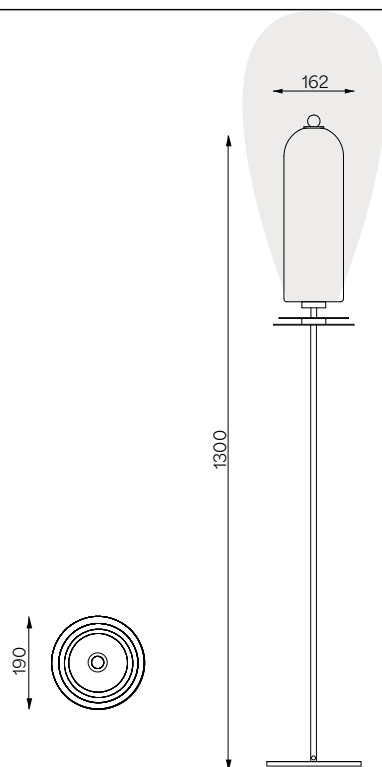

The verticality of the hand-crafted borosilicate glass gives the floor lamp an elegant and understated presence.

Brass and stone complete the composition, expressing lightness through a refined, minimalist design.

Dettagli tecnici | Data sheet

Type:	Suspension
