

DOM

DSM01

LUCE o TU

La silhouette affusolata del vetro borosilicato lavorato a mano dona a DOM DSM01 una presenza elegante e delicata.

Ottone e pietra completano una composizione essenziale, pensata per valorizzare lo spazio con discrezione e armonia.

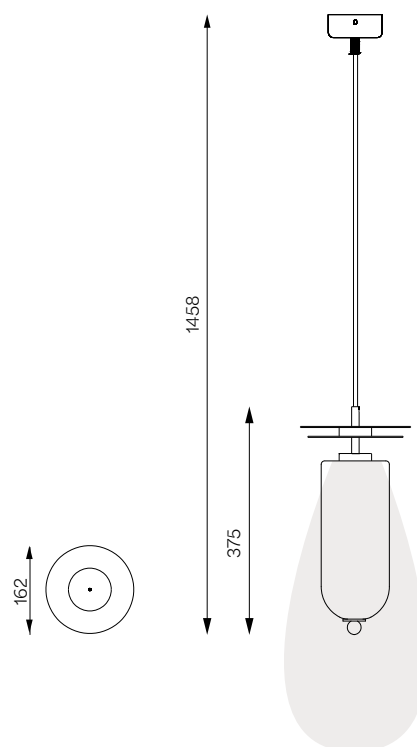

The slender silhouette of the hand-crafted borosilicate glass gives DOM DSM01 an elegant and delicate presence.

Brass and stone complete an essential composition, designed to enhance interiors with understated harmony and refined simplicity.
